

NDSU Computer Science Course Assessment tracking form

Course number:

Course section: (if teaching multiple sections on the same syllabus, list the sections)

Course name:

Term (year/semester)

Instructor:

Please reference the current Assessment report from the department and find the course matrix identifying outcomes for this course. List the number and short description of the outcome. Then for each listed outcome identify, what is being done in the class to address this outcome. I.e. CS160 outcome x-x read a paper, assignment 5 requires reading a paper of the instructor's choice, this is being externally assessed and copies are given to the assessment committee.

Outcome	Action taken in course	Assessment instrument(if any)

2.		
3.		
4.		
5.		
6.		

Signed by instructor: _____ date _____

This sheet to be turned in to the department Undergraduate secretary. Copies should be made and shared with the other faculty teaching this course. It would also be a good idea to share this with the last faculty teaching the course or the "keeper of the course".
